-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 14 April 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

The amendment received 4/14/04 has been entered and claims 1-2, 9-17 are currently pending in this application. In view of the arguments presented and amendments to the claims, the rejections of record under USC 103(a) and 112, second paragraph, are hereby withdrawn.

Claims 1-2, 9-17 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. A number of features are critical or essential to the practice of the invention, but not included in the claim(s) is not enabled by the disclosure. *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976).

Claims 1-2, 9-17 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

On page 17 first full paragraph, "The increased neurological effectiveness of Euk-8 in comparison to MnTBAP indicates that it is possible to screen different compounds rapidly and easily for effectiveness in preventing free radical mediated disorders of the central nervous system in the particular MnSOD (-/-) mouse exemplified herein." On page 19 lines 15-18, "Thus, animals which have been treated with an antioxidant such as MnTBAP or Euk-8 can be used for the screening of antioxidants which will prevent or

Art Unit: 1651

delay the onset of the mitochondrial myopathy phenotype in skeletal muscle." On page 30 Table 4 shows the lifespan of mice untreated, treated with Euk-8 and MnTBAP.

No screening of any compounds is shown in the specification as originally filed. It would appear, but is unclear, that the administration of KNOWN antioxidant compounds prior to the administration of test antioxidant compounds is essential to the claimed invention. However, no such multiple administration is shown and therefore no compounds are found which have antioxidant activity which is what is presently claimed.

Applicant's arguments filed 4/14/04 have been fully considered but they are not persuasive.

Applicants argue that the claims clearly state the invention. The homozygous mice generated by Li were used to describe the claimed methods in the present application.

It is the examiner's position that the specification must provide written description and enablement for the claimed invention and it does not. The above rejection is made under 35 USC 112, first paragraph, not second paragraph. The above rejection is not directed to obtaining the mutant mice.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1651

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ralph Gitomer whose telephone number is (571) 272-0916. The examiner can normally be reached on Monday - Friday.
